Pressure cooker **PRO-CLASSIC**

- For Professional use.
- Made of aluminium.
- Suitable for gas, electric, cookers and cooktops.
- Excellent thermal conductivity. Fast and efficient. High energy performance (70%).
- The pressure/counterweight valve lets steam escape and regulates pressure inside the pot.
- Safety/depressurisation valve: acts in case of failure of the pressure valve.
- Stronger and more robust bridge.
- Anti-scald bakelite handles.

Air fryer dAirePro

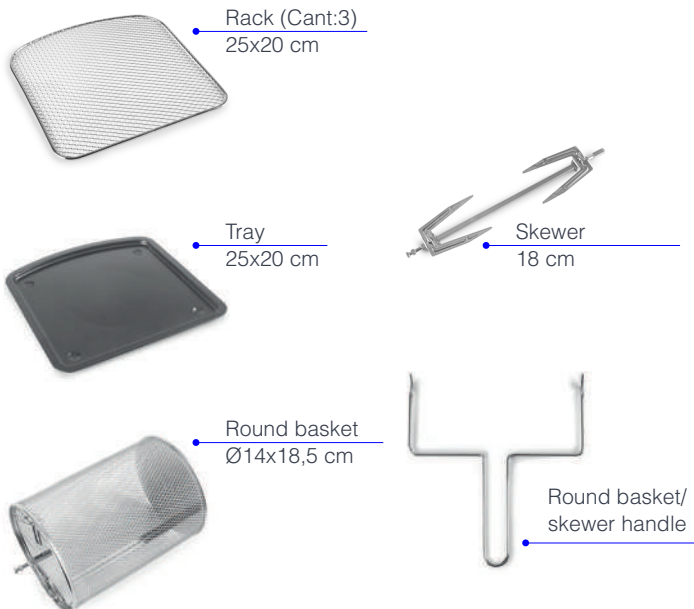

Household
use

- Healthy, homemade cooking: designed to fry, dehydrate, bake, roast and keep food warm.
- **RapidAir Technology**: the air ventilation technology circulates hot 360°C air at maximum speed inside the cooking chamber, which distributes the **heat uniformly** inside the oven and guarantees that all food is cooked evenly.
- Maximum "9-in-1" versatility: 9 pre-set automatic programmes for you to cook all kinds of recipes quickly and healthily: chips, chicken, ribs, vegetables, fish, pizza and even dehydrate food.
- LED touch screen: very practical and easy to use. Time control (up to 60 minutes and 6 hours for dehydration) and precise cooking temperature settings (from 40°C to 200°C).
- Cooking control thanks to the glass door and interior light
- **TotalSafe**: the body, door and handle remain cool during use. It also features a **double-layer door** made of high-strength inner glass.
- High power: **1700W**. Maximum capacity: **12 litres**.
- **7 accessories included**: 3 racks, tray, round basket, skewer with clamps and handle for round basket. The basket and the butterfly spike rotate for even cooking.
- Easy to clean: detachable, dishwasher-safe accessories.
- Non-slip base: guarantees maximum stability during use.
